PROFESSIONAL SUMMARY

Result-driven Third-year BCA student with strong foundations in software engineering, backend architectures, and full-stack development. Experienced in building local infrastructure, agentic development workflows, and desktop applications using C#, Java, Python, and the MERN stack. Demonstrated capability in translating complex logic into practical tools, looking to leverage advanced engineering skills in a challenging Software Development role.

WORK EXPERIENCE & INTERNSHIPS

Unified Mentor Pvt. Ltd., Gurugram, Haryana | Web Developer Intern

May 2025 – Jul 2025

Summer Intern – Web Development Intern

- **Full-Stack Development (MERN / SQL & Python):** Engineered 2 major web applications built with robust backend logic, linking frontends to relational/non-relational database connections to manage persistent user data and secure state handling.
- **High-Volume Frontend Delivery (HTML5, CSS3, JavaScript):** Rapidly designed, coded, and deployed 11+ mini frontend projects, mastering advanced DOM manipulation, responsive layouts (Flexbox/Grid), and interactive, fluid user interfaces.
- **Database & API Integration:** Formulated optimized query schemas and REST API endpoints to process client-side operations efficiently, eliminating data latency between user inputs and database storage.
- **Version Control & CI/CD workflows:** Orchestrated all project assets using **Git and GitHub**, maintaining clean version trees, handling component code reviews, and managing multiple concurrent codebases.

PROJECTS

- **CrimeIntel:** Intelligence Analytics Platform | *Python, AI/ML, MERN Stack (Ongoing)* Advanced intelligence application integrating investigative data models, secure predictive threat analysis, and dynamic analytics dashboards for law enforcement workflows.
- **FieldSync:** Land Information System | *React, Node.js, MongoDB, Leaflet API* Agricultural GIS application mapped real-time coordinates and user-marked land boundaries via live Map APIs with custom Express backend schemas.
- **SpaceFlightMonitor:** Flight Telemetry System | *.NET C#, Windows Forms, MS SQL Server* Native desktop tracking engine simulated real-time satellite telemetry and space debris metrics using multi-threaded asynchronous database updates.
- **SynchroGrounded-Net:** Infrastructure Dashboard | *React, Tailwind CSS, Java Networking* Distributed control center for semantic-constraint orchestration across critical infrastructures integrated real-time data sync with structured frontend design.

SKILLS

Technical: C, C++, C#, Java, Python, JavaScript, TypeScript, SQL

Frontend Technologies: React.js, Tailwind CSS, HTML5, CSS3, Windows Forms, UI/UX Design

Backend & Databases: Node.js, Express.js, REST API Design, Java Networking (Sockets/RMI), MS SQL Server, MongoDB Atlas

Tools & Platforms: VS Code, Git, GitHub, Docker, Figma, Vercel

AI & Advanced Systems: DeepSpeed, Hugging Face, Neural Networks from Scratch, LLM/SLM Fine-tuning, Agentic Development Workflows

Domains & Core Fields: Agriculture & Land (GIS Systems, Geolocation Analytics), Space (Flight Telemetry, Orbital Simulations), Transportation (Intelligent Logistics, Fleet Tracking), Infrastructure (Distributed Systems, Semantic Orchestration), Power (Automation Monitoring), Technologies (Full-Stack Web, Native Desktop Systems)

Soft Skills: Assistance, Data Storytelling, Problem Solving, Cross-functional Collaboration, Adaptability, Accountability, Acceptability, Feature Execution, Core Logic Implementation

Languages: English — Proficient (C1) | Hindi — Fluent | Kannada — Conversational

CERTIFICATIONS

- | | |
|---|----------------|
| • Skills for Creating Websites — mindluster | Jul 2023 |
| • Vs code — mindluster | Jun 2023 |
| • Learning Full Stack Development — Infosys SpringBoard | Dec 2024 |
| • HTML5 with JavaScript & CSS3 — Infosys SpringBoard | Sept 2024 |
| • E-Business — NPTEL IIT Kharagpur Skill India | Jan - Apr 2026 |
| • Unlocking AI for Everyone (Beginner) — NCVET Microsoft Skill India | May 2026 |
| • Date Structures in C++ Course — SCALER | Mar 2025 |
| • Lagacy Responsive Web Design V8 — freecodecamp.org | Jan 2024 |

EDUCATION

CHRIST (Deemed to be University), Bengaluru

Jul 2024 – May 2027 (Expected)

BCA — Computer Science | CGPA: X.X / 10.0

Ganga PU College, Bengaluru

Class XI - XII Jun 2022 – Apr 2024

Commerce | 87.5%

SGM Public School, Bengaluru | ICSE

Class VI: Jun 2018 · Class X: Apr 2022

Class X — 75.33%
